97. The false price and cost representations, as they were submitted to the State of Texas on or after April 7, 1994, are organized in a chart within this paragraph by "Drug", "NDC Number", Texas Medicaid Payment Amount ("WEAC"/"DEAC"), "Relator's Cost", the "Gross Profit" and the percentage of "Gross Profit." The amount under the heading "Relator's Cost" is the true price that DEFENDANT MYLAN PHARMACEUTICALS charged the Relator for the drug or caused another entity to charge the Relator for the drug. A comparison of the Relator's cost with DEFENDANT MYLAN PHARMACEUTICALS' price representations shows the falsity of DEFENDANT MYLAN PHARMACEUTICALS' price representations for the specified drugs. Furthermore, the table shows the materiality of DEFENDANT MYLAN PHARMACEUTICALS' false statements because it shows health care providers made a profit for prescribing DEFENDANT MYLAN PHARMACEUTICALS' drugs. Texas Medicaid, which intended to pay for drugs based upon estimated acquisition costs, never intended to pay the amounts under the heading "Gross Profit."
